

**WADSWORTH FAMILY COLLECTION  
SUNY GENESEO**

**DETAILED NAME AND SUBJECT INDEXES  
TO LETTERS AND SELECTED OTHER MATERIALS**

**compiled by William T. Lane, Librarian Emeritus  
1994-1995**

## Guide to the Index

This index is divided into two sections. Section 1 is alphabetical by name. Section 2 is alphabetical by subject. Entries are arranged on the page according to the following pattern:

1	2
3	4
5	6
7	8
9	10

All entries corresponding to items in SUNY Geneseo's Wadsworth collection provide the location, indicating either the shelf number (designated by the word "shelf" or abbreviation "sh" at the end of the Location line), <sup>\*</sup>map case (usually with drawer number), or file cabinets (usually with cabinet and drawer number).

There are many references to the Library of Congress' Wadsworth collection. A microfilmed copy of that collection is available at gen Ms 10 (in the microfilm cabinet in the Genesee Valley room). A published index to the Library of Congress' Wadsworth collection is shelved at Wadsworth CD 3029.5 W125 A52.

*\*Entries labelled map case and a drawer do not refer to drawer numbers. To find the drawer number, search under "Maps" in the 2 drawer card file (using the place name as shown in the index). But note that some locations listed in the card file may be wrong.*
